## Connect with a CCA Pen Pal

We match students, classrooms, and families with pen pals. All of our pen pals are affected children or adults with a craniofacial syndrome. The goal is to create an environment of acceptance and to teach students and children that there is so much more to a person than just their appearance. Through the pen pal program students and children often realize how similar they are with their pen pals. Some like the same sports, foods, hobbies, etc.

### HOW DOES IT WORK?

1. Email our Outreach Director to get started. **Email: [kmoten@ccakids.com](mailto:kmoten@ccakids.com)**
2. Identify how many pen pals you are looking to match and for what age group. We suggest 1-2 pen pals per classroom. We will try to match your classroom with a pen pal who is also of a similar age group/level.
3. CCA will then send you the bio of the pen pal and your classroom will send the first letter.
4. Letters are sent to the CCA office for privacy and security purposes. We then forward the mail to the CCA pen pal.
5. The CCA pen pal then responds by sending us a letter which we then forward to you.
6. The process then continues.
